**Subject:** PMPs Needed

PMPs Needed

No prior experience is required.

Project Management Professionals are needed to serve as presenters, workshop leaders, and seminar team members for the 2015 program of professional development seminars.

Presenters and Workshop Leaders

~~~~~

This is an opportunity to develop your presentation and facilitation skills in a friendly group of your peers.

The subject does not have to be original. You can explain a topic from an article, book, or journal in the project management literature. However, case histories are always well received, and you can talk about your own experiences on projects.

We are now assembling the program of professional development seminars for the year 2015. We would like to identify, in advance, potential presenters, workshop leaders, and topics. We would like you to be part of the program. Please contact Walter Wawruck, PMP to volunteer: [wawruck@telus.net](mailto:wawruck@telus.net). Please let him know by Wednesday November 10, 2014. if you can.

At the November 19, 2014 PD seminar, we are organizing a workshop devoted to planning a full seminar program for the year 2015, and we would like to firm up your role in the program at that time.

A brief description of the planned program is given below. Get more information from Walter Wawruck or any Officer of the Society: President Kim Hunter, PMP [khunter100@gmail.com](mailto:khunter100@gmail.com), Secretary Treasurer John Cooke, PMP [jcooke803@gmail.com](mailto:jcooke803@gmail.com)

Our plan so far is to have a minimum of four seminars in 2015. We could easily accommodate another three seminars in the calendar. Here are the planned dates and general themes so far:

February 18, 2015. Tried and True - or New Approaches - for IS/IT Projects? Case histories, traditional vs. agile, methodologies, security.

April 15, 2015. Social Responsibility and Stakeholder Consent. Environmental and socio-economic impacts, licensing, stakeholder involvement, public participation and consensus building.

September 23, 2015. Integrating the Disciplines on Engineering-Architectural-Construction Projects.

November 18, 2015. Working with Humans. Team building and development, education and training, project start-up, partnering, conflict resolution and negotiation, motivation, communication, and cognitive styles

The themes are not rigid nor are they exclusive. Unrelated topics or general project management topics can be included in any program.

Or, if you have an idea for a seminar on a theme or topic that interests you, this is your opportunity. Volunteer to be the project manager for a separate seminar devoted to the issue of concern to you.

#### Seminar Management Team Members

~~~~~

In addition to technical presenters and workshop leaders, these are the roles on the management team for each seminar. Additional volunteers are invited for all. One person may be asked to do two or more jobs:

- Project Manager
- Technical Program
- Binder Co-ordination
- Facilities and Food
- Registration and Collection
- Evaluation Report

#### ABOUT THE SOCIETY - WEBSITE ADDRESS

\*\*\*\*\*

The Society of PM Professionals is a voluntary, democratic organization of PMP®s in the Greater Vancouver area, who are dedicated to the achievement of their common purposes in the profession through mutual support, co-operation, and collective effort.

There are more than 450 PMP®s in the Vancouver area who receive notices of Society events.

The Society holds at least three Professional Development Seminars in Vancouver each year.

The Professional Development Seminars feature technical presentations and workshop facilitation by PMP®s for the purpose of continuing professional development. The seminar is intended for PMP®s. However, a PMP® may invite guests who are committed to the advancement of the Profession. Practitioners who plan to become certified as PMP®s are welcome in particular.
